

ADMINISTRATIVE NOTE

ITRACOM FERTILIZERS LAUNCH WEEK – DODOMA PLANT

June 28th 2025

Dodoma, United Republic of Tanzania

1. INTRODUCTION

ITRACOM Fertilizers Ltd (IFL), a subsidiary of Burundi-based FOMI Fertilizers under ITRACOM Holdings, will host the Official Launch Week of its modern fertilizer manufacturing plant from June 28th 2025, at Nala Industrial Area, Dodoma.

Operating across East and Central Africa, IFL produces high-quality organo-mineral fertilizers—blending organic matter with mineral nutrients to promote soil health and sustainable agriculture. The launch event, themed “Building Sustainable Agri-Futures,” will showcase the plant’s advanced production capacity and bring together key stakeholders to celebrate this milestone in Tanzania’s agricultural and industrial development.

2. REGISTRATION

- **Registration Process:** Online registration via official launch portal
- **Badge Collection:** *On-site at the Nala Plant entrance during June 28th.* All delegates must display badges throughout. Report lost badges to registration desk.

3. EVENT MATERIALS

- **Official Programme & Daily Agendas:** Accessible via portal and QR codes at entry points.
- **Event Website:** [INTRACOM WEBSITE](#)
- **Thematic Guides:** Centered on key pillars
 - Blended Fertilizer Innovations
 - Nutrient-focused Agriculture
 - Sustainable Production & Quality Control
